SUMMARY

I spent 8 years on the other side of the dashboard: the recruiter waiting on headcount numbers, the sales rep chasing a pipeline report, the HR partner presenting turnover figures nobody questioned. That is exactly why I became a data analyst, not to learn a new tool, but to finally understand the ones I had been handed for years. I now build with Python, SQL, and Tableau, but the actual skill transfer is knowing what a decision maker needs to see, and asking what is behind the number before I chart it. Seeking a Data Analyst role, open to Business Analyst, BI Analyst, and Reporting Analyst titles, across any industry and any location, remote or onsite.

TECHNICAL SKILLS

Languages & Analysis: Python (Pandas, NumPy), SQL / PostgreSQL, Statistical Analysis (hypothesis testing, A/B testing)

Visualization & BI: Tableau Desktop & Public (KPIs, LOD expressions, Sets, dashboards, storytelling), Matplotlib, Seaborn, Excel

Data Engineering: dbt (staging to marts modeling), SQLAlchemy, ETL / API pipelines, Git & GitHub

Machine Learning: Linear Regression, K Means and DBSCAN Clustering

DATA ANALYTICS PROJECTS

Workforce & HR Analytics Dashboard

09/2026

Tools: Python, dbt, SQL, Tableau, Streamlit

- Built an end to end HR analytics project: synthetic HR data modeled through dbt staging and marts, published as an interactive Tableau dashboard with filters and animations, plus a Streamlit companion app.

Logistics & Supply Chain Analytics: Atlas Global Logistics

09/2026

Tools: Python, dbt, SQL, Tableau, Streamlit

- Built an end to end supply chain analytics project with a dbt pipeline (34 passing tests), a geographic warehouse network map, a Tableau dashboard with cross-chart filter and highlight actions, and a Streamlit companion app.

Premier League Recruitment Capstone (Worth the Investment)

Completed, 09/2026

Tools: Python, SQL, dbt, Tableau

- Combined three real data sources (Transfermarkt values, Transfermarkt injuries, FBref performance) to test three recruitment hypotheses across 1,959 players; reported an honest negative result (value-forecast model underperformed a coin flip at 22.7% directional accuracy) alongside a signal that held up (any injury history predicts 0% value growth vs. +4.35% for injury-free players).

Airports, Flights & Weather Dashboard

08/2026

Tools: Python, Pandas, SQL, Tableau

- Analyzed flight delay and cancellation data to identify operational KPIs by route and airline; built an interactive Tableau dashboard and story to surface the worst performing routes for stakeholders.

Netflix Content Dashboard

08/2026

Tools: Tableau

- Published an interactive Tableau Public dashboard breaking down Netflix's content library by genre, release trend, and rating using KPIs, LOD expressions, and Sets.

PROFESSIONAL EXPERIENCE

HR Business Partner

06/2024 to 01/2026

Gi Group Deutschland GmbH

Remote, Germany

- Aligned workforce planning with business goals, contributing to a 25% increase in team performance.
- Improved organizational restructuring transition success by 85% through close collaboration with senior leadership.
- Advised managers on employee relations and performance management to strengthen team effectiveness.

Onsite Recruitment Supervisor

09/2022 to 05/2024

Gi Group Deutschland GmbH

Bremen, Germany

- Managed end to end recruitment and onboarding for a major client, and recruited approximately 250 employees within 6 weeks for a peak season (400+ total).

Chemical Sales Engineer

01/2017 to 01/2022

ACC (Aburida for Construction Chemicals)

Remote, Egypt

- Grew the North Egypt client base from 9 to 43 accounts (nearly 5x) while exceeding EGP 1M monthly sales targets.

EDUCATION

Data Analytics & AI Bootcamp

2026 (Completed)

neuefische GmbH (School and Pool for Digital Talent)

Remote, Germany

- Full time program covering Python, SQL, Tableau, dbt, Git, and statistics through hands on projects.

Bachelor of Chemical Engineering

2010 to 2015

UCSI University

Kuala Lumpur, Malaysia

- GPA 3.46 / 4.0. Coursework strengthened quantitative analysis, problem solving, and process evaluation skills.

ADDITIONAL SKILLS & STRENGTHS

Business Operations: Workforce Planning, Full Cycle Recruitment, Change Management, Process Improvement

Core Strengths: Analytical Thinking, Problem Solving, Communication, Collaboration, Adaptability, Attention to Detail

Languages: English (Proficient), German (B2, Advanced), Arabic (Native)

Recognition: Best Recruiter Award, Gi Group Deutschland (2023)
